Mennonite Furniture Studios American Heirloom Furniture
'Classic' & 'Heritage' Furniture Classifications

Shaker Bedroom Suite by Mennonite Furniture Studios American Heirloom Furniture

■ 'Classic' Furniture Piece

A 'Reproduction Antique' faithfully following a distinct and premier antique furniture piece. *Classic furniture remains exactly true to the original furniture form and style, using the original joinery techniques.*

Compared to the master piece, use of modern glues and finishes enhances quality, and selected components may deploy a minor increase in wood thickness in order to address a known weak point in the original design.

Mennonite Furniture Studios Classic furniture pieces are actually of higher quality and more durable, requiring less maintenance, than the original antique masterpieces that they are modeled upon.

■ 'Heritage' Furniture Piece

A Masterful Adaptation of a distinct and premier antique furniture piece, with some alteration to increase both functionality and durability.

Compared to the original piece, use of modern glues and finishes enhances quality. Variations in both joinery techniques and wood thickness enhance strength and durability. Adjustment of the original form and style improve functionality.

Mennonite Furniture Studios Heritage furniture pieces are actually of higher quality and more durable, requiring less maintenance and offering enhanced functionality compared to the original piece.

Mennonite Furniture Studios - American Heirloom Furniture - Only The Best Endures!
